

# NO LIGHT NO PROBLEM

VOLUME 2

BY MATT KLOSKOWSKI

# WELCOME

## INTRODUCTION

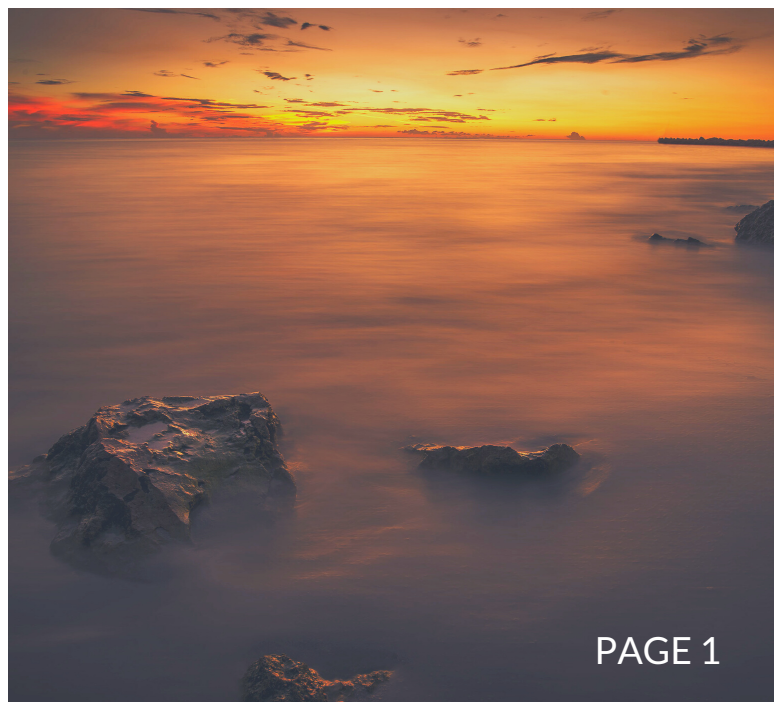

Hi there!

Welcome to the No Light? No Problem!  
This is my before and after course that cuts through all the techie stuff and gets down to the creative and visual edits that REALLY make a difference.

I created this course because I see people get caught up in sharpening, noise reduction, lens corrections, keywords and all of the things that won't make one bit of visual difference in your photos. But after doing thousands of photo critiques over the years, I've come to realize the stuff I cover in this course is usually what's missing.

I hope this course fills in some of the blanks behind the "why" of my photo editing style and really helps you get creative with your photos.

I hope you enjoy!  
- Matt K

NO LIGHT NO PROBLEM
